

# IN TOUCH WITH ADVENTURE

## Endura™ Sierra

The Most Powerful And Complete Out-Of-The-Box Outdoor GPS Navigation Experience

### Fully loaded with detailed topographic outdoor maps and content

- Over 3GB of detailed onboard mapping plus 3D electronic compass and altimeter

### Unparalleled ease-of-use

- Features a simplified touch screen interface and "hot key" physical buttons to quickly access main features

### Multi-recreational with dedicated outdoor features

- Includes a large range of mapping options preloaded on plug & play microSD cards up to 32GB or web download

### FEATURES AND BENEFITS:

- > Premium outdoor content pre-installed: detailed hillshade, topographic contours, primary, secondary and neighborhood roads, extensive outdoor trails and key points-of-interest
- > Sensor enhanced navigation with digital, stabilized 3-axis compass and barometric altimeter
- > Directly accepts GPX trails and geocaches as well as POIs from web communities or other sources
- > Enhance navigation by adding any of 7 regional mapping packages with advanced topographic contours and hillshade detail or regional fishing/marine navigation content
- > Trip computer – record trails, altitudes, trip times, speed and distance traveled
- > Multimedia MP3/voice notes, picture and video players – for entertainment or viewing trail camera photos or video
- > Quick access to all primary functions with gloves in harsh weather or rugged conditions using physical buttons
- > Turn-by-turn navigation capable for car, motorcycle, cycling, etc. (with optional purchase)
